Gen. Smith Leaves Walter Reed Hospital

After nearly a year as a patient in Walter Reed Hospital, Gen. Walter Bedell Smith, President Eisenhower's chief of staff in Europe during World War II, was discharged yesterday and said he was going back to work.

The General, 65, entered the hospital Oct. 13, 1959, for treatment of pneumonia and a lung abscess. He was on the critical list for months and underwent minor surgery twice. Physicians said yesterday his condition was "very fine."
